Personal Details

- Date of Birth : August 22, 2000
- Nationality : Filipino

Skills

Skill	
Python	60%
Photoshop	40%
InDesign	60%
HTML	60%
CSS	60%
JavaScript	40%

Objective

To secure a challenging role and widen my knowledge and skills for the company. To put my training, seminars, and other experiences to good use.

Education

- **STI College Surigao**   **2022**

  Bachelor of Science in Computer Engineering

Projects

- **Computer-Controlled Door Lock System with Facial Recognition and QR-Code**

  My colleagues and I did a group thesis project for our final year in college, where I built the hardware and programmed the software system for the project.

- **Profile Websites**

  Developing Profile websites using front-end languages like Html,Css, JavaScript

Additional information

- I am an optimist and also a team player in such group projects. I have high perseverance when it comes to high-pressure situations.
